

**CERTIFICATION OF CPNI FILING
FEBRUARY 6, 2006
EB-06-TC-060
EB DOCKET No. 06-36**

I, Karen H. Martinoff, hereby certify that I am President of Hayes E-Government Resources, Inc. ("Hayes"); that I am authorized to execute this certification for Hayes; and that I certify, based upon personal knowledge, that the following accurately describes the Company's operating procedures related to the protection of Customer Proprietary Network Information as set forth in Federal Communications Commission's CPNI rules, 47 C.F.R. § 64.2000, *et seq.*

Hayes is primarily a provider of Internet access and other non-telecommunications services. Hayes provides telecommunications services in only one instance to only one customer, which is a state government. As dictated by our contract with that state government, except for of the technical configuration of the network, all information related to the provision of telecommunications services to this government customer, including the type of services, the amount of services, the amounts paid by the state to Hayes, is all publicly-available information. Since at the request of customer all information regarding its account is publicly available, it is unclear whether the information would constitute "customer proprietary network information" for purposes of the Commission's rules. However, any limited marketing Hayes may conduct to the state is based on publicly-available information about the state's services. Furthermore, Hayes does not share, sell, lease or otherwise provide any information on this customer to its affiliates, suppliers, vendors or any other third parties for the purposes of marketing any services.

A handwritten signature in black ink that reads "Karen H. Martinoff". The signature is written in a cursive, flowing style.

Karen H. Martinoff
President
Hayes E-Government Resources, Inc

Executed on: February 6, 2006
